# YOUR COUNCIL

**Mayor Susan Cassidy**  
scassidy@hanwell.nb.ca  
506-460-1177

## A MESSAGE FROM YOUR MAYOR

Happy Earth Day! Even though it is still a few weeks away I hope you will take a few moments to have a conversation with family and friends about what each of us can do, no matter how small, to contribute to the good health of our environment. It is important for us to constantly try to improve how we affect our environment. We can increase our recycling and reduce our curbside waste, compost in our backyards then plant a flower in the compost. There are so many ways to make a difference all we have to do is decide to do it.

On May 11th, 2020, the rural community of Hanwell will be going to the polls, for the municipal election. This is an important event and I hope members of our community will participate as candidates or at least as a voter. In previous elections voter turn out has been poor. There are those who say they are too busy to stop to vote and there are many who think that their vote wouldn't make a difference any way. Your vote does count! Poor voter participation has a direct effect on the community. When so few people vote, the elected officials do not receive an accurate direction from the residents. This makes it difficult for the elected council to know what directions you want your community to go. There is a responsibility on candidates as well, to let you know their position on the issues they see affecting the future of our community. Please ask questions of candidates and most importantly please vote on May 11th.

**Susan Jonah**, Ward 1  
sjonah@hanwell.nb.ca  
506-238-1539

**Holly Hyslop**, Ward 2  
hbhyslop@hanwell.nb.ca  
506-451-0697

**Dave Morrison**, Ward 3  
Deputy Mayor  
dmorrison@hanwell.nb.ca  
506-450-9799

Can you see yourself here, making a difference in your community?  
Consider running for Council!  
Election: May 11th

# Light Pollution and Its Effects

There are many different forms of pollution, some of which are familiar to most people. Things like air, water, and noise, are all common types of pollution that you often hear about in the news. But there is another form of pollution that you don't hear about very often, but is beginning to become more of a problem, and that is light pollution. Pollution is defined as the presence in or introduction into the environment of a substance or thing that has harmful or poisonous effects.

What are the harmful effects of 'too much light'? After all, most people would agree that having things like lights at intersections certainly improves safety at night. But there are many areas that are less obvious, where it could be a problem. Over the past decade, large increases in suburban lighting have been found to cause migratory problems for animals. Something called the "color temperature" of the lights is also important, as lights that are "true white" (high color temperature) confuse animals into thinking it's daytime, when it isn't. These white (usually LED) lights have also been shown to disrupt sleep patterns in humans. Putting excessive lighting where it serves no purpose also impacts vegetation/plant growth.

Buildings that install excessive lighting for nighttime, often without security cameras even watching the areas that are being lit, can produce harmful glare for drivers. Your eyes adjust to light levels that surround you, and when you start to approach a heavily lit building or parking lot, it actually reduces safety, from the high glare making it difficult to see. And then after you pass the lit area, your eyes are still adjusting to the more intense light that you just passed, and now your vision is limited when it returns to normal lighting levels.

You may ask yourself: Well, I'm not running a business with a big parking lot, so what can I do? If you are using things like a dusk to dawn light, do you have it in an area where it's providing the most benefit to your own yard, or are you lighting up a neighbor's yard with it? There are light fixtures that are also "dark sky certified", that have things attached to them to properly cut off the light direction, so that it's going where it's supposed to go (lighting paths and driveways, for example) and not where it shouldn't go (straight out, or straight up). You may also want to consider using lights with a lower color temperature (more in the 'yellow' range, that people have long been used to seeing with incandescent bulbs), as this is less harmful to vegetation, animals, and people.

- Darren MacKenzie, Councillor At Large

## What's New With 2nd Hanwell Scouting

This summer the scouts of 2nd Hanwell Scout Troop will be going on a trip to the Atlantic Jamboree at Camp Nedooae in Elderbank, Nova Scotia. This trip is a great experience for Scouts, as we will have the chance to meet Scouts from all over Canada as well as different parts of the World. This will be a week long trip.

To cover all the costs we have been planning a few fundraisers as well have received some funds through donations. On the 22nd of April (Earth Day) we will be setting up a bottle drive in a truck to refund bottles. We will also be explaining the importance of something we do in Scouting known as "Leave No Trace."

Come join us with some bottles on Earth day at the Hanwell Community Centre. Every bottle counts! Hanwell is Inspired by Nature and Ours to Explore.

Follow us on Facebook @2ndHanwellScouting

# NOTEWORTHY...

## AGE FRIENDLY Community

The Age Friendly Committee is continuing our journey to become designated as an Age Friendly Community. Thanks very much to everyone who has participated so far. We had a great turnout for our focus groups, with lots of thoughtful discussion and ideas. As well we have completed our Community Survey, and Public Consultation session.

We are presently working on our Action Plan, which will be presented to council in March. It will be published shortly after that, and priorities will be set. It promises to be an exciting time in Hanwell. We have a great facility to develop recreational programs. We must work on Senior Friendly housing, so people will want to stay in the community. We also need to look at transportation options. Our goal is to make Hanwell a place for a lifetime! Lots to do, but we will get there!

Our 2nd Annual Age Friendly Open House is scheduled for Sunday, April 19th, from 1-4 pm at Hanwell Place. We had over 30 exhibitors last year, with something for everyone of all ages. Watch for our advertising later in the spring. And if you would like to join us as an exhibitor, call our Municipal Office or contact [sjonah@hanwell.nb.ca](mailto:sjonah@hanwell.nb.ca)

As always, if you have any questions or suggestions for our committee, feel free to contact Susan Jonah, committee chair.

- Councillor Susan Jonah, Age Friendly Committee Chair

## Planning Management Committee

The Planning Management Committee will be holding an OPEN HOUSE on Earth Day, April 22nd, from 6-8 pm, at Hanwell Place.

There will be booths from George Street Middle School's environmental club, NB Power, Fredericton Region Solid Waste, the Royal Astronomical Society of Canada, and others. Our guest speaker, Peter Corbyn, will be doing a presentation at 6:30. Peter has an extensive background in environmental work, being awarded the Canadian National Clean Air Day Award in 2007 for Excellence in Efficiency Outreach. He is also a founding board member of The Climate Reality Project Canada, a member of the global non-profit organization launched by Al Gore in 2006 to train people around the world to present a live version of the slide show featured in the movie "An Inconvenient Truth".

We will also have information about light pollution, including examples of some types of lighting that are "Dark Sky" certified. We will be giving away these lights after the open house, with the winners to be announced online after the event, and notified by phone or email the following day.

So come on out to our event, learn some great information about our environment, and how it impacts your home and your community.

- Councillor Darren MacKenzie, Planning Management Committee Chair

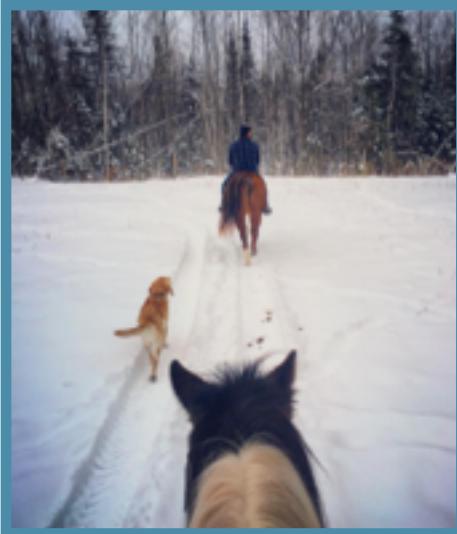

## Hanwell Days 2020

Hanwell Days is near, so clear your calendar for the last weekend in May (29th, 30th and 31st). This will be our sixth celebration - yes Hanwell will be 6 years old in May. The committee has been hard at work planning for this celebration. It will start on Friday,

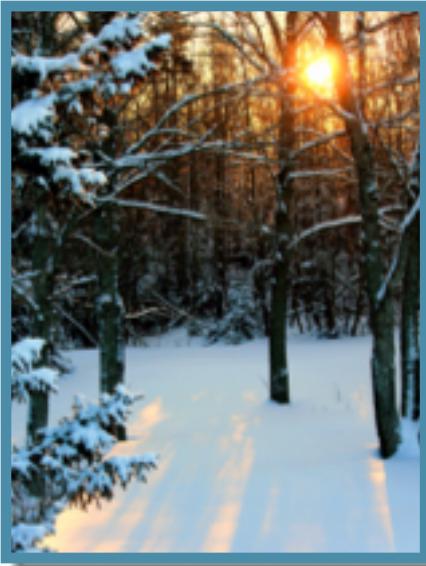

May 29th with opening ceremonies and fireworks Friday night. The annual indoor Flea Market will be held on Saturday afternoon at Hanwell Place and a dance will be on Saturday night. Something new added for this year is the First Annual Hanwell Days Golf Tournament, so dust off your clubs and gather a foursome. This will be a 4 person Texas Scramble format played at Kingswood's Executive 9 Hole course. Lots more fun things, and even a few new things to do so keep an eye on our website, [www.hanwell.nb.ca](http://www.hanwell.nb.ca) and our Facebook pages and group for more details. If you have any suggestions of what you would like to see at Hanwell Days or if you would like to get involved with the planning and delivery, please contact me at 450-9799. We can always use additional volunteers.

- Deputy Mayor Dave Morrison, Hanwell Days Committee Chair

# WINTER PHOTO CONTEST WINNERS!

1st Place, above: Allyson Finley,  
Hanwell, NB

2nd Place: Derek Libby,  
Hanwell, NB

## First Place Photo (left) and Essay (below):

"We are so lucky to live in a place as beautiful as Hanwell. Having lived in the community for two years now, my family and I are spending more time outdoors than we ever did. Whether it's hiking with our four dogs in Hanwell Recreation Park, running through the park or subdivisions, or horseback riding on the endless trails, there is always something to do. This picture was taken on our property and is of our two horses, Daisy and Reign, and Lacey, our oldest dog. We are riding on trails we made in the deep snow in our fenced in pasture. On this particular day, we didn't have time to take the horses out for a long trail ride, but it was too nice to not be outside that day, therefore a quick loop around our property sufficed."

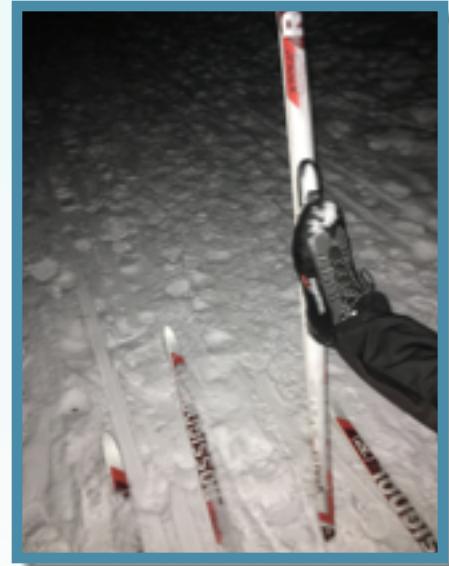

"Despite wintery conditions making most people want to stay indoors, having so many options for things to do in Hanwell, makes it hard to do just that. I am grateful we moved from the city out into this area so we can truly experience all winter has to offer and spend more time doing the things we love. Our horses are particularly happy too; every time we set out, there's a new trail to explore."

## Second Place Photo (left) and Essay (below):

"Woke up to this amazing view behind our house this morning. We are lucky to live here, in Hanwell, surrounded by the beauty and Inspired by Nature."

## Third Place Photo (right) and Essay (below):

"It is fantastic to be able to unwind in the evening on the Hanwell Recreation Park trails. We don't have far to drive to safely get some fresh air and exercise on the beautifully maintained trails. When the weather cooperates, we love to get out for a cross country ski around a loop or two. This photo was taken during an evening ski using headlamps recently. Hanwell is a great place to be inspired by nature, and to get out and enjoy some fresh air, even in the middle of winter!"

3rd Place: Martina Verboom,  
Hanwell, NB

**Thank you to all who entered the contest! Look for announcements for the Spring Photo and Essay Contest on our Facebook page and get your chance to show us your photos and tell us the story behind them.**

## Gardening Great and Small

As spring approaches, the sun shines longer and warmer, we can see the earth waking up with a sigh of relief. Gardeners of all kinds have been planning for weeks on what this year's plantings will bring. The joy of creating your garden and watching it grow is as exciting for the person who plants a ¼ acre as the person who has planted an individual pot.

Container gardening is a great alternative to having to commit to a ground breaking endeavour. You can grow vegetables, herbs, fruit and flowers in containers successfully. Whatever you would like to grow, there are few restrictions. There has to be some commitment though, as all plants must be nourished. Start by doing a bit of research; what would you like to grow? Does it need sun, shade? How large does it grow, what size container would you need? Can you buy seedlings or do you want to start plants from seed?

There are resources available on-line, at the library, or ask a neighbour whose garden you have admired. Whatever you decide, plant something that will give you pleasure!

- Mayor Susan Cassidy

# A SCHOOL FOR HANWELL: An Update

On Monday January 27th, we had the architectural renderings of our new K-8 school unveiled at Hanwell Place. The Honourable Dominic Cardy, Minister of Education and Early Childhood Development and MLA for Hanwell, along with Anglophone School District - West Superintendent David McTimony and District Education Council Chair Kimberley Douglas, spoke to the need for this school in Hanwell. As Mayor, I feel very strongly that the construction of this school will be the heart of our community in the future.

The new school is scheduled to be completed in January 2022. Located on the property adjacent to our new recreation centre, the school's outdoor track will intersect with the current Hanwell trails. This will allow teachers to engage their students in outdoor programs, exploring nature. The school is designed to include state of the art amenities. There will be 2 gymnasiums, a performing arts and music area, outdoor classrooms are to be included in addition to the classrooms and other common areas. This is a school designed for the education of our community's youth.

If you haven't had an opportunity to view all of the renderings, please drop by the Rural Community offices and staff will be happy to share them with you.

This is a great investment in our community's future and in the development of the youth of Hanwell.

-Mayor Susan Cassidy

## Medicine Cabinet Clean-Up

Spring is here and it's time for a major cleanup.... Don't forget the medicine cabinet!! **Did you know** that pharmaceutical products break down over time? They can become ineffective, contaminated, or unstable. Here are some helpful tips for an effective medicine cabinet cleanup to keep you and your family safe:

- Remove prescription medications that are old or that you no longer take
- Remove expired non-prescription medications, including cough/cold, pain, first aid and vitamins
- Remove medicines no longer in their original containers or with labels that can't be read
- Remove medications that have changed colour, smell or taste

Now that you have identified items for disposal it's important to get rid of them safely, to ensure the safety of children and pets never throw medication in the garbage. Also... **BE GOOD TO THE ENVIRONMENT!!** Don't flush medication down the toilet. That's where your local pharmacy comes in!!! They are happy to incur the cost of ensuring safe and environmentally friendly disposal of medications. Bring all the medicines you have cleaned out to be disposed of safely. If you have questions, your local Pharmacist is there to help.

# Your Friendly Neighbourhood

Perhaps it's a Junco, a Blackcap Chickadee or something bigger and furrier. Living in a rural community puts you in the heart of nature at its best. If you take the time to stop, look, and listen you'd be amazed by all the wildlife that goes about their business everyday in our community, right under our noses.

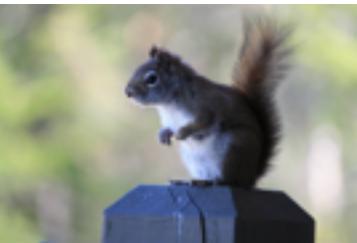

Not unlike a visitor to your home, sometimes it's an invited guest like a Hummingbird chowing down at a feeder or a Blue Jay picking up a trail of peanuts to deliver to its young. Other times however, it could be a racoon looking for scraps or an energetic squirrel doing a high-wire act across a clothesline to infiltrate your backyard bird sanctuary.

Whoever the visitor, take the time to find out what type of feed different critters enjoy, grab your camera and sit back on your back deck and wait for the action to start.

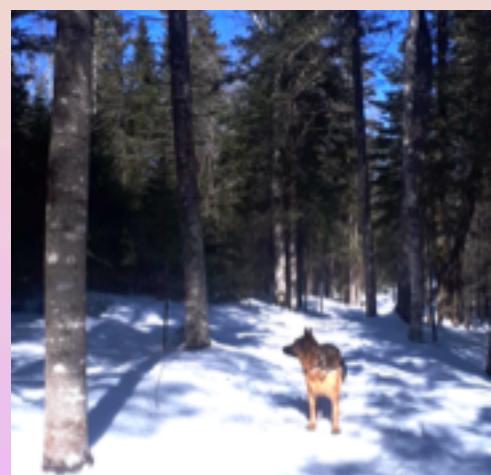

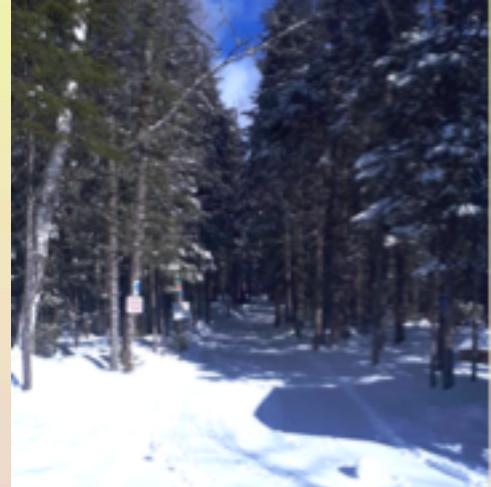

When planting a garden make sure to take the proper precautions to protected your vegetables from unwanted visitors. Many folks have used homemade solutions such as chicken wire or other materials to keep the animals at bay. You could also use planter boxes that you could take inside at night.

And don't be alarmed if you hear a droning clang early in the morning. Sometimes woodpeckers can't tell the difference between a rotten tree and a hydro pole.

- Kevin Lunn, Communications Committee

## In Pictures...

Above: Family Day fort building with the Scouts, using colorful ice bricks at Hanwell Place!

Right: Freshly groomed trails, and a stroll through Loop 3 of the trails for good girl, Grace!

# Elections 2020

Municipal, District Education Council and Regional Health Authority Elections will be taking place on May 11th, 2020.

The Rural Community of Hanwell will be participating in our third municipal election. Your elected council consists of four ward councillors, two councillors-at-large and the mayor. All of these positions are open for election. If you have an interest in taking on an active role in the community this may be the opportunity for you.

Hanwell is a young community; our population has seen steady growth - in 2006 we were 3812 and in 2016 our population was 4750. The construction of the new K-8 school in Hanwell will likely result in new housing and corresponding population growth. There will be a need to have a strong vision for our community's development and this is the time to ensure that the vision is inclusive for all.

Would you like to actively guide the community forward, have an opportunity to represent the residents of Hanwell at the council chamber table? Then consider becoming a candidate. It does require a time commitment but the rewards are many.

If you would like more information on becoming a municipal election candidate, you can find information online at [www.electionsnb.ca](http://www.electionsnb.ca) or call 1-888-858-8683 (VOTE).

-Mayor Susan Cassidy

## Hanwell Recreation Park

As we continue to grow at a nice, easy pace, our residents continue to tell us how much they enjoy our Park and Trails! This makes us so happy, and we strive every day to make your experiences here great ones.

Loops 2 and 3 of Hanwell Park Trails continue to be off-leash friendly at this time, however remember that dogs need to be visibly leashed in all other areas within the rural community of Hanwell and our grounds - this is not only our official Policy but it is also a Provincial Regulation. And please remember to "stoop n scoop" after your pet wherever you are!

There have been some recent changes to our Park and Trails. To the left, you will see a map of our current Hanwell Recreation Park Trails (you can also find this map in the Kiosk). You may have noticed that a section of our trails is closed off - this is due to the new Hanwell School coming in 2022 as this section is currently part of their project. But don't despair, there is a plan in place to offer trail-goers a new option once the School opens, so stay tuned. Meanwhile, please ensure to take notice of the signage indicating this section is closed, and that entry onto this area is considered trespassing.

We are excited for these changes and new projects happening that will continue to encourage people to live here and call Hanwell home.

- Assistant Clerk Cindy Hackett, Communications Committee

# I've Been Pumped Contest is Back!

The Rural Community of Hanwell is pleased to offer our residents the “I've Been Pumped!” contest again this year, with one of four prizes to be won:

- A free future pump from Nicholson's Waste Management (must be a customer of this company)
- A free future pump from Ludsan Enterprises (must be a customer of this company)
- A free future pump from Ready John (must be a customer of this company)
- A full reimbursement of your paid 2020 pump invoice from the rural community of Hanwell

*See contest flyer, website and social media for details!*
